

17 Million Signatures

Revoke Article 50 and remain in the EU

You've probably heard about this runaway petition.

But did you see Andrea Leadsom's sarcastic comment?

"Should it reach 17.4 million respondents then I am sure there will be a very clear case for taking action"

So what if we do that?

Actually get 17.4 million signatures on the petition?

How it can happen

It just needs you.

To sign yourself, and then tell everyone you know.

It really could happen - we are already well on the way.
